

SUPERIOR PRIME LAMB CONCENTRATE

WITH YEA-SACC®

A high specification macro-mineral, trace element and vitamin concentrate with Yea-Sacc® for feedlot lambs or free-choice supplementation.

SUITABILITY

Prime lamb finishing in confinement or grazing pasture or stubbles
Lot feeding or supplementation with high grain rations

FEATURES

High specification ingredients
High bio-availability
Comprehensive range of macro-minerals, trace elements and vitamins
Yea-Sacc®; NO anti-microbials

BENEFITS

Balances high grain rations formulated with typical WA ingredients
Supplies essential trace elements and vitamins
Improved feed intake pattern, Feed Conversion Efficiency and growth rate
Improved rumen stability and reduced risk of digestive disorders and acidosis
Supports the immune system resulting in healthier lambs

SPECIFICATIONS

Calcium	Ca	23.0%	Chromium	Cr	8mg/kg
Phosphorus	P	1.4%	Molybdenum	Mo	20mg/kg
Magnesium	Mg	3.7%	Vitamin A		200KIU/kg
Sulphur	S	2%	Vitamin D3		40KIU/kg
Copper	Cu	200mg/kg	Vitamin E		1000mg/kg
Cobalt	Co	20mg/kg	Vitamin B1		120mg/kg
Selenium	Se	20mg/kg	Molasses		3%
Zinc	Zn	1600mg/kg	Salt		12%
Manganese	Mn	1600mg/kg	Yea-Sacc®		12g/kg
Ferrous Iron	Fe	1200mg/kg			
Iodine	I	20mg/kg			

DIRECTIONS FOR USE

Add 25kg/mt of prepared feed or place in free draining vessels and make available ad-lib
Ensure thorough mixing of ingredients in prepared rations
Introduce grain feeding gradually over 14-21 days
For free choice feeding pour into free draining containers and allow ad-lib access
Customised ration formulation available on request

PRESENTATION

25kg bag, 1mt bulka bag

DISCLAIMER

Introduce or modify high grain rations gradually to facilitate adaptation
Ensure ad-lib access to fresh clean water
