

SUPERIOR CATTLE SUPPLEMENT

A high specification macro-mineral, trace element and vitamin loose lick for ad-lib use in grazing cattle and calves

SUITABILITY

Cattle of all ages
Grazing pasture and green cereal crops where crude protein is sufficient to meet the required level of performance

FEATURES

High specification ingredients
High bio-availability
Comprehensive range of macro-minerals, trace elements and vitamins
Biotin and zinc for hoof integrity

BENEFITS

Complements macro-mineral levels in pasture and forage to improve utilisation
Supplies essential trace elements and vitamins
Can enhance fertility and conception rates
Supports milk production in breeders to increase growth rate in their calves
Can enhance growth rates, weight gains and performance in young stock
Supports the immune system resulting in healthier cattle

SPECIFICATIONS

Calcium	Ca	14.0%	Chromium	Cr	16mg/kg
Phosphorus	P	2.0%	Vitamin A		200KIU/kg
Magnesium	Mg	2.6%	Vitamin D3		40KIU/kg
Sulphur	S	1.6%	Vitamin E		1000mg/kg
Copper	Cu	600mg/kg	Vitamin B1		120mg/kg
Cobalt	Co	20mg/kg	Molasses		2%
Selenium	Se	20mg/kg	Salt		30%
Zinc	Zn	1600mg/kg	Crude Protein	TCP	6.2%
Manganese	Mn	1600mg/kg	Biotin		8mg/kg
Ferrous Iron	Fe	1200mg/kg			
Iodine	I	20mg/kg			

DIRECTIONS FOR USE

Pour into free draining containers and allow ad-lib access
Allow one lick station per 20-25 head
Ensure continuous access once supplementation has commenced
Avoid introducing to hungry or starving cattle
Intake may exceed target level until craving for minerals is satisfied
Target intake: 50-175g/head/day

PRESENTATION

25kg bag, 1mt bulka bags

DISCLAIMER

Ensure ad-lib access to fresh clean water
