

# **SUPERIOR FEEDLOT MINERALS**

## **WITH RUMITECH®**

**A high specification macro-mineral, trace element and vitamin concentrate with RUMITECH® for feedlot cattle.**

### **SUITABILITY**

Cattle finishing in confinement or grazing pasture  
Lot feeding or supplementation with high grain rations

### **FEATURES**

High specification ingredients  
High bio-availability  
Comprehensive range of macro-minerals, trace elements and vitamins  
RUMITECH® essential oils; NO antibiotics

### **BENEFITS**

Balances high grain rations formulated with typical WA ingredients  
Supplies essential trace elements and vitamins  
Improved feed intake pattern, Feed Conversion Efficiency and growth rate  
Improved rumen stability and reduced risk of digestive disorders and acidosis  
Supports the immune system resulting in healthier cattle

### **SPECIFICATIONS**

Calcium	Ca	22.0%	Chromium	Cr	8mg/kg
Phosphorus	P	1.0%	Molybdenum	Mo	20mg/kg
Magnesium	Mg	3.7%	Vitamin A		200KIU/kg
Sulphur	S	2.3%	Vitamin D3		40KIU/kg
Copper	Cu	600mg/kg	Vitamin E		1000mg/kg
Cobalt	Co	20mg/kg	Vitamin B1		120mg/kg
Selenium	Se	20mg/kg	Molasses		3%
Zinc	Zn	1600mg/kg	Salt		15%
Manganese	Mn	1600mg/kg	RUMITECH®		2000mg/kg
Ferrous Iron	Fe	1200mg/kg			
Iodine	I	20mg/kg			

### **DIRECTIONS FOR USE**

Add 25kg/mt of prepared feed  
Ensure thorough mixing of ingredients  
Introduce grain feeding gradually over 14-21 days  
Customised ration formulation available on request

### **PRESENTATION**

25kg bag, 1mt bulka bag

### **DISCLAIMER**

Introduce or modify high grain rations gradually to facilitate adaptation  
Ensure ad-lib access to fresh clean water
