

## **SUPERIOR YOUNG LAMB STUBBLE BUSTER**

**A true protein, macro-mineral, trace element and vitamin supplement for lambs grazing cereal stubbles, standing cereal crops, crop residues or fed cereal grain.**

### **SUITABILITY**

Weaner lambs

Grazing cereal stubbles, standing cereal crops, crop residues or dry feed &/or fed cereal grain in a trail or lick feeder.

### **FEATURES**

Bentonite to buffer rumen pH and reduce risk of acidosis

True protein to support rumen function and stimulate feed intake

Range of minerals, trace elements and vitamins (high level vitamin E)

### **BENEFITS**

Complements nutrient levels in cereal products to improve utilisation

Facilitates increased feed intake where crude protein is limiting

Supplies essential trace elements and vitamins

Improves productivity on dry feed and crop residues

Can help maintain weight and condition on dry season feed base

Supports the immune system resulting in healthier sheep

### **SPECIFICATIONS**

Calcium	Ca	13%	Chromium	Cr	4mg/kg
Phosphorus	P	1.7%	Molybdenum	Mo	10mg/kg
Magnesium	Mg	2.2%	Vitamin A		100KIU/kg
Sulphur	S	2.1%	Vitamin D3		20KIU/kg
Copper	Cu	100mg/kg	Vitamin E		1000mg/kg
Cobalt	Co	10mg/kg	Vitamin B1		60mg/kg
Selenium	Se	10mg/kg	Molasses		3%
Zinc	Zn	800mg/kg	Salt		10%
Manganese	Mn	800mg/kg	Urea		NIL
Ferrous Iron	Fe	600mg/kg	Crude Protein	TCP	11.5%
Iodine	I	10mg/kg	Bentonite		20%

### **DIRECTIONS FOR USE**

Pour into free draining vessels and allow ad-lib access

Allow one lick station per 50-100 head

Ensure continuous access once supplementation has commenced

Avoid introducing to hungry or starving sheep

Target intake: 25-60g/day. Intake may exceed target until craving for minerals is satisfied

Ensure access to adequate roughage

### **PRESENTATION**

Available in 25kg bag

### **DISCLAIMER**

Do not feed to hungry or starving sheep

Ensure ad-lib access to fresh clean water
