

# SUPERIOR CALCIUM SULPHUR HI-MAG

**A balanced macro-mineral, trace element and vitamin loose lick with high magnesium for free-choice supplementation of sheep.**

## SUITABILITY

Late gestation and lactating ewes. Growing lambs  
Grazing cereal crops and grass dominant pastures

## FEATURES

Comprehensive range of macro-minerals, trace elements and vitamins  
High levels of calcium, magnesium, sulphur and sodium  
Palatable presentation

## BENEFITS

Supplies macro-minerals to complement grass dominant pastures and grazing cereals  
Supplies essential trace elements and vitamins  
Helps build ewe body reserves of calcium to reduce risk of hypo-calcaemia  
Supports milk production in breeders to increase growth rate of their lambs  
Assists skeletal growth, weight gains and performance in lambs  
Supports the immune system resulting in healthier lambs  
Safe for access by all livestock species

## SPECIFICATIONS

Calcium	Ca	21.8%	Iodine	I	4mg/kg
Phosphorus	P	0.1%	Chromium	Cr	1.6mg/kg
Magnesium	Mg	3.0%	Molybdenum	Mo	4mg/kg
Sulphur	S	2.7%	Vitamin A		40KIU/kg
Copper	Cu	40mg/kg	Vitamin D3		8KIU/kg
Cobalt	Co	4mg/kg	Vitamin E		500mg/kg
Selenium	Se	4mg/kg	Vitamin B1		24mg/kg
Zinc	Zn	640mg/kg	Molasses		3%
Manganese	Mn	320mg/kg	Salt		24%
Ferrous Iron	Fe	240mg/kg			

## DIRECTIONS FOR USE

Pour into free draining containers and allow ad-lib access  
Allow one lick station per 50-100 head  
Ensure continuous access once supplementation has commenced  
Intake may exceed target level until craving for minerals is satisfied  
Target intake: 30-60g/head/day  
Can be added to grain supplements at the rate of 2.5%

## PRESENTATION

25kg bag, 1mt bulka bag

## DISCLAIMER

Ensure ad-lib access to fresh clean water
